

I do not want any restoration of the ability to call my phone by any one or any business, thats why I registered on the NO CALL LIST, I don't want to be bothered by these dumb phone calls, now or ever. If they succeed in reinstating the ability to call me I just will not answer as I have a ID on my phone and so therefore I don't recognize a number I just won't answer it. SO as I say don't bother me.
